Hello John.

I received the following (b) (6), complaint (b) (6), (b) (7)(C). Moses Lake Industries is an SM80 for Methanol at 9.46 tons. He mentions in his email sending a complaint to EPA. How would EPA proceed on this complaint – is this something you would inspect with us or separately? (b) (7)(A), (b)(5) attorney work product, (b) We have not dealt with such complaint before, so would appreciate your thoughts. I am available all day tomorrow if you would like to discuss.

Thanks!

Karin

THIS EMAIL ORIGINATED FROM OUTSIDE THE WASHINGTON STATE EMAIL SYSTEM - Take caution not to open attachments or links unless you know the sender AND were expecting the attachment or the link

Karen Baldwin – WDOE

I want to inform the Washington State Department of Ecology that that regrettably I am filing a (b) (6), complaint with your agency regarding knowing and willful violations by certain current and former managers of Moses Lake Industries related to the federal and state Clean Air Acts and their implementing regulations, as well as some items that may fall within the category of the Clean Water Act.

As these are programs that EPA also has oversight and authority with regard the (b) (6), complaints I am also making those to EPA. From an EPA program standpoint, the activities may include violations of TSCA.

(b) (6), (b) (7)(C)

(b) (6), (b) (7)(C)
